OBJECTIVE

I am a ECE graduate having intermediate knowledge of programming languages .I am really keen to work in IT field.I am Passionate about learning new things and building new projects .I want to put my knowledge and skills into practice.My goal is to become a software professional.If given opportunities will surely be able to contribute to the growth of the organization.

EDUCATION

Bachelor of Technology in Electronics and telecommunication Jorhat Institute of Science and Technology. Assam Science and Technology University, Percentage : 84%	August 2018 - June 2022
HSC, Class XII Pub Kamrup College, Percentage : 69%	June 2018
SSC, Class X Khalihai Anchalik High School , Percentage : 87%	June 2016

SKILLS

C Programming, C++, Html and Css, Python, Javascript, ReactJs, NodeJs, Expressjs, MySql.

PROJECTS

Mini Project

DESIGN A POWER SUPPLY

- Aim of the project is to design a 5v and 12v power supply using Bridge rectifier connection.

Final Year Project

WIND PREDICTION USING MACHINE LEARNING

- Focus of this project is on the analysis of behaviour of the wind, with an aim to develop a wind prediction system with machine learning which can be used in production prediction of wind powerplants.Here we have used the algorithm of Machine Learning i.e., Linear Regression, Decision Tree and Random Forest. In this project we have predicted the wind speed and direction using historical weather reports data sets collected from “Rain Forest Research Institute” and online source, and plot the predicted values against the test values.

PERSONAL SKILLS

Quick learner

Punctual and Down-to-earth

Positive attitude

Hard working and ability to grasp new techs well

WORK EXPERIENCE

- Working as a Software Devloper Intern in Borgos Technologies Private Ltd where I am working in real projects.
- Skills Used : Html,Css,Js,React Js,Next Js,Node Js,MySql

CERTIFICATIONS

Internship Program on RISC-V based 32-bit Digital Processor Design.

Python-A Beginners guide towards Python Programming.

CSS-Basic to Advanced for front end developement(2021).

Html,Css & Bootstrap-Certification Course for beginners.

Integrated Telecom/Data Network & Cyber Security.

HTML & CSS-Certification Course for Beginners.

CS213.3x: Algorithms.
